## Litter Plans / Adult Dogs

**Bella Charlie Litter** - The [Guccifer](#) X [Bella](#) Charlie Litter was born 7/14/21. Gucci is AtAt Ee and Bella is AyAt EE so the genetic color forecast was 50% red and 50% black & tan. There was a black & tan girl, red girl, black and tan boy. All are healthy and thriving.

**Michi Bravo Litter** - [Michi](#) is in season we are in the process of breeding her to [Guccifer](#) for her Bravo Litter. Progeny will all be red.

**Kimi Gulf Litter** - [Kimi](#) is in season we are in the process of breeding her to [Star-Lord](#). Progeny will all be red.

**Aki Alpha Litter** – Clearances for [Aki](#) were completed in May. Her next season to breed is projected as middle of October 2021 with litter approximately New Years. We are evaluating sires for her Alpha Litter, but we are leaning towards [Kuzya](#).

**Kimiko Alpha Litter** – A [Kimiko](#) breeding is planned for October or November 2021. We are evaluating sires for her Alpha Litter, but we may take her to [Mecho](#) if he is mature enough and his health clearances are complete.

**Adults To Approved Home** (Selection process for our adult and retired dogs is stricter than the selection process for our puppies). No adult dogs are available currently.

**Updated Vaccination Protocols and Health Guarantee**  
The Shiba Inu is a very primitive breed (very high on the [wolfiness scale](#)). We recently updated our [Vaccination Protocols](#) and [Health Guarantee](#) that is part of every Shomaisou contract. We hope this information is helpful for all Shiba homes when making vaccination decisions for your dogs.
