Life and Times at Shomaisou Shiba Inu

Each month we update our newsletters multiple times, so check the date on the newsletter to know when it was last updated.

Visits of our dogs We restrict visits to our home to people that are on our “Approved Homes List,” I am going to add a new page to my website called [shows](#). You are welcome to visit us and our dogs at one of the shows, especially if it’s in your area. I’ll note them as (Interested/Planning and Entered). All dogs are located in Wyoming until late July.

Litter Plans / Adult Dogs

Michi Charlie Litter - [Guccifer](#) X [Michi](#) Charlie Litter of a red male singleton was born 4/16/22. This is a co-owned litter whelped in West Virginia. The 8 week evaluation determined that Kami needed a show/breeding home or one that will allow him to be shown and kept intact relatively close to us. We decided to keep him in our breeding program and will bring him to Ohio from the West Virginia co-owners home. We co-own Gaylord’s Kami of Shomaisou, call name Kami with Truett and Lisa Harris in WV. His first planned show will be in November.

Kimiko Bravo Litter – A [Kimiko](#) breeding was completed with [Ace](#). June 17th an ultrasound was done. The breeding did not take. We will likely breed her again in November.

Bella Echo Litter – We decided to complete a [Daichi](#) X Bella Litter. On 7/7/22 pregnancy was confirmed by ultrasound. 2 maybe 3 puppies, due date 8/1/2022. 7/26/22 confirmed 2 puppies by x-ray. This is going to be an interesting litter. All the dogs and I travelled by RV first week of June to Wyoming to visit family and friends. I decided to setup my whelping area up in the toy hauler (garage) of my RV. I have a new [RV Cam](#) back there, but its internet is not as reliable as home so it will not always be available. We will head back to Ohio mid-August with the new litter. Note: If you have a Foscam account and the app on your phone and following this litter I can grant to better cam access through the Foscam app instead of [AngelCam](#).

[Daichi OFA](#) (All tests complete but not posted as of 7/14/22)

Aki Alpha Litter – We skipped the season in May 2022, and we will breed in forecasted season November 2022. We may breed her to [Mecho](#) if he is mature enough in November.
